Bring your restaurant business online quickly with Maxis Cloud POS Lite

The age of business digitalisation is here. We're here to help you get there and stay ahead.

Current practices posed major challenges for businesses

Hence, the need for digitalization has never been greater

Inability to go online quickly

Delivery partners take 30 – 35% cut

Decentralised management of orders, payments and deliveries

Expensive hardware and lack of connectivity

How about a solution that will help you bring your restaurant business online quickly to drive more revenue?

Auto populate your digital menu for both online and in-store operations using a consolidated platform

Pay a simple monthly or lifetime fee. No additional transaction costs or commission fees!

Centralise management of orders, payments and deliveries on a single platform that is fully integrated with online payment gateway and delivery providers

Centrally manage in-store, takeaway and online orders on a single platform (with sim-based connectivity) using your own existing Android mobile phone or Android POS terminal that comes with an integrated receipt printer

Go online easily with a comprehensive POS solution

Stay connected with an app-based POS

Use your own existing Android mobile phone or Android POS terminal* to centrally manage in-store, takeaway and online orders on a single platform with sim-based connectivity

*inclusive of receipt printer

Integrated platform

Centralise management of orders, payments and deliveries on a single platform that is fully integrated with online payment gateway and delivery providers
